

PLOUGH SHEARMIXER

Dust free loading & unloading system

CE

TAPASYA

Plough Shear Mixer is designed for heavy duty blending of both Dry and Wet materials. Plough shape shovels mounted on central shaft with its pointed ends are easily penetrable through the dense powder mass in a cylindrical drum or a vessel. Shuffling of the mixture is achieved by broader end of the shovels. Penetration followed by agitation of the mass in quick succession of the specially designed blades results in homogeneity of powder mass both in dry and wet stages. Appropriate dough formation is reached in later process. Centrally mounted chopper will then operate to obtain wet granules of uniform size. Mixed homogeneous mass can be easily discharged from bottom of the mixing drum which is provided with flush fit discharge.

SALIENT FEATURES

- ! Batch size based on 70% of blender volume.
- ! Cross Contamination is completely eliminated by mounting Bearings on lanterns out of mixing zone Plough Shovels bolted on sockets are easily removable providing easy accessibility to all inside parts of the mixer
- ! Feeding through a charging port mounted on top of the mixer.
- ! Inspection Doors with safety interlocks.
- ! Reduced material handling due to bottom discharge facility of processed materials.
- ! Choppers provision as an optional feature.
- ! Fully welded plough shovels can also be provided on request.
- ! Available size 100 L to 10,000 Ltrs.
